

Maths

The children will be re-visiting formal methods for addition, subtraction, multiplication and division. They will solve problems in fractions and measures contexts. We will also explore the properties of 3d shapes.

Geography

In Geography, the children will be completing their unit on Rivers to find out whether all rivers are the same..

Spanish

The children will be learning Spanish words for classroom objects.

Religious Education

In RE, the children will be exploring the concept of freedom. They will learn about how this concept relates to the festival of Passover in Judaism.

English

In Reading lessons, the pupils will be initially looking at some of the themes and conventions used by Roald Dahl in his books then reading and exploring Play Scripts.

In Writing lessons, the pupils will be writing a narrative and a newspaper article linked to James and the Giant Peach,

Stories of Roald Dahl Year 4 Summer 1 2026

Science

The children will be looking at different habitats within the school grounds and investigating the different organisms that live within them. They will learn how to use diagrams and keys to classify organisms and investigate how organisms are connected through food chains. They will predict what might happen to the organisms in a habitat if it is damaged or destroyed.

PE

The children will be learning about athletics.

Computing

The children will be learning about Coding using Scratch to create continuous loops and create games.

PSHE / SCARF Valuing difference.

This half term, the children will be exploring stereotypes, friendship and families.

Design and Technology

In Design and Technology, the children will be baking cupcakes decorated with imaginary insects.
