

English

In English this half term, we will be studying the book *The Final Year*. The book is written in poems and follows the story of a year 6 child and his journey through SATs and transition.

Maths

In Maths, we will be continuing with arithmetic and reasoning each day. We will be revising the skills we have learnt throughout the year and applying them to a range of problems.

DT

In DT, we will be designing and creating a drawstring bag. We will use back stitch to sew the seams.

Year 6 Summer 1

PE

In PE, we will be practising our athletics skills. We will be revising our throwing, jumping and running.

Computing

In computing we will be learning about web design.

Geography

In Geography, we will be learning about Peru and its biomes. We will compare Peru's biomes to the hottest and coldest places on Earth.

RE

In RE, we will be learning about the concept of avatar. We will link this to the Hindu religion.

Science

In Science, we will be learning about animals including humans. We will find out how our respiratory systems work and how our heart rate is affected by exercise. We will also learn about how different lifestyle choices can affect our health.
